EDUCATION

University of Washington Expected Graduation: Aug 2027
Master's in Human-Computer Interaction and Design

California Polytechnic State University, San Luis Obispo Sept 2023 – June 2026
B.S. in Liberal Arts and Engineering Studies: Product Design & Computer Science
Minor in Computer Science
GPA: 3.9

EXPERIENCE

VISUAL DESIGN INTERN, ASPEN Inc. Jan 2025 – Sept 2026

- Designed and developed a tutorial hub for browsing, searching, and watching software training videos, improving access to product learning resources for over 750 clients in more than 68 countries
- Conducted heuristic evaluations of circuit-breaker diagramming software, identifying usability issues and recommending design improvements
- Designed ads for T&D World (~50K readership) and IEEE PES (~30K members) magazines, showcasing ASPEN's flagship products (OneLiner, PowerFlow)
- Created brand styling guidelines and design leaflets for international conferences, supporting global outreach (5K engineers)

PRODUCT MANAGER, Cal Poly Iter8 Jan 2026 – May 2026

- Led a team of 6 designers, coordinating research, ideation, design critiques, and stakeholder presentations for Gemlato, a gelato brand
- Applied UX research methods including interviews, persona creation, competitive analysis, and usability testing to uncover user needs and validate design decisions
- Architected site navigation, user flows, and high-fidelity prototypes that streamlined flavor discovery, online ordering, and dietary preference filtering
- Established reusable UI patterns, improving consistency and development readiness

GRAPHIC DESIGN INTERN, Asian Liver Center at Stanford University Jun 2024 – Jun 2025

- Collaborated with stakeholders across two internship terms (Summer + Academic Year) to align ad designs with marketing objectives and student audience needs
- Designed and prototyped an AI chat experience for accessing hepatitis B and liver cancer information
- Created 20+ graphics and animations promoting 8+ health initiatives while collaborating with stakeholders across marketing and education
- Maintained the HepB Moms website, ensuring accessible, up-to-date content and consistent visual communication

TOOLS

Figma, Adobe Suite, HTML & CSS, JavaScript, React, Java, Python, Git

SKILLS

User Research, Prototyping, Usability Testing, Wireframing, Design Systems, Visual Design
